

HAUL PERMITS

City Ordinance requires that all contractors hauling waste fill or waste excavation materials, where the haul exceeds 5,000 cubic yards or when the duration of the haul is more than ten (10) working days, obtain a permit from the Engineering Division.

A permit is required for haul routes that meet the minimum requirements of the ordinance.

Prior to receiving a permit, the following is required.

- Certificate of Insurance
- Proof of valid Contractor's license
- Straight-line drawing (not to exceed 12"x18")
- A fee of \$50.00 prior to issuance of permit.

Questions related to hauling permits, requirements or routes should be directed to the following:

Haul routes - Transportation Division (480) 350-8219

Permits - Engineering Public Information Counter (480) 350-8288

Operations - Engineering Construction Inspector (480) 350-8200
